DETAILED ACTION

Priority

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Specification

2. The abstract of the disclosure is objected to because: The language such as "is composed and is registered" in the abstract should be deleted. Correction is required. See MPEP § 608.01(b).

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 1-8 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Re claim 1 and 7: the applicant recites the limitation of a verification apparatus, which verifies a card when an existing place of the reader corresponds to an area of the identification code. The applicant fails to define the specifications of the limitations "existing area". The term "existing area" can be interpreted/considered in many instances. For instance, certain banks, airlines companies or credit card issuers have promotional benefits based on local or regional area for local communities.

Claims 2-6 and 8 are rejected as being dependent of claims of 1 and 7.

Art Unit: 2876

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Peralto (U.S. 5,878,399) discloses a computerized voting system, which stores all personal and other demographic information, a regional computer connected to the central computer to determine where the voter is eligible to vote in certain location.
